RE: JOYCE TREULIEB PROMOTION

Faculty Promotion Committee,

The following letter is written in support of Ms. Joyce Treulieb's application for promotion to Full Professor. Joyce has been serving Colorado Mountain College students for well over ten years. She has been quoted for having a "passion for teaching and concern for student learning." As being her Dean and past ADI, I can attest that she cares about her students. I recommend giving Ms. Treulieb full consideration for promotion.

Joyce advises the Climbing Club student organization and has been working to create an Autism Spectrum Disorder Club. She holds office hours in the tutoring center and advises at SOAR. She cares about the success and opportunity of her Steamboat students, but also continues to provide advance math offerings collegewide to *all* CMC students.

Joyce is an active member of her department and discipline. She has presented to her peers on pedagogy, designed the co-requisite support course to pair with Math for Liberal Arts, wrote a calculus textbook, and has been involved with the statewide math group. To further serve her department, campus, and institution, Joyce has been a Faculty Senate representative.

In summary, I provide my recommendation for Ms. Joyce Treulieb's promotion. If you have any questions, please contact me at jelawrence@coloradomtn.edu or 970-870-4413.

Sincerely,

John Lawrence

John Lawrence, PhD
School Dean; Science, Technology, Engineering, and Math

To: Faculty Promotion Review Committee, Faculty Senate
c/o Dr. Kimberly Harding
Dr. Jonathan Lawrence, Dean of STEM
Dr. Kathryn Regjo, VPAA
Mr. Kevin Williams, Associate Dean of Academic Affairs, Steamboat Springs
From: Dr. JC Norling, VP & Campus Dean, Steamboat Springs
Re: Letter of Support for Joyce Treulieb, Associate Professor of Math, Steamboat Springs

I highly recommend and endorse Joyce Treulieb for faculty promotion from associate to full professor of math at Colorado Mountain College. Joyce has shown excellence in teaching and service to the college. Amazingly, she published a Calculus textbook during her sabbatical, and has developed and written a compendium of math curriculum informing co-requisites for specific math courses.

Joyce supplies transformational experiences for students through teaching excellence. She has consistently received high praise on IDEA evaluations from students. Her classroom observations show teaching ability in math. Joyce has implemented modern teaching and learning strategies and techniques needed during Covid-19. Utilizing new modalities, Joyce has become a more well-rounded professor.

Joyce is actively involved in service to the discipline. During the summer of 2020, she took part in a summer project to develop corequisite classes for Math for Liberal Arts, College Algebra, and Statistics. She developed a syllabus template and the assessed outcomes that became a 149-page document. She has kept up to date on math education by attending the ORMATYC conference, as well as other trainings such as Trauma-informed Pedagogy Workshop.

Joyce is committed to providing thoughtful and caring service to students via tutoring outside of regular office hours, advising at SOAR, helping with the rock-climbing club and the engineering club. In addition, Joyce has served as senator for college-wide faculty senate and continues in that role.

In closing, Joyce Treulieb is an asset to Colorado Mountain College and to the Steamboat Campus.
She is positive and engaged in all aspects of faculty work, very student focused, and incredibly intelligent.
I highly recommend her for faculty promotion to full professor.

Sincerely,
J.C. Norling

To Whom It May Concern:

I am very pleased to be able to write this letter of recommendation for my colleague, Joyce Treulieb. She is an outstanding coworker and a very valuable asset to our campus and the greater college-wide community.

Joyce is a very dedicated faculty member and she has always worked hard to continuously reinvent her courses and her approach. Her dedication to her work is evident in many ways and two examples come to mind right away. Joyce was an sabbatical a couple of years ago and wrote and entire calculus textbook and solutions manual for CMC. She made this available to other instructors and it is a very approachable text for students.

In the fall of 2021, we were shorthanded with tutors. She took it upon herself to set up her office hours and other time in our learning lab to fulfill our need for math tutors. She helped any students that came in looking for help and she has continued to do this currently, even with tutors in place now.

Joyce is a valuable asset to CMC and very student focused. She serves as a club advisor and has been a mentor to young women and men interested in STEM and higher-level math pursuits. We are very lucky to have her teaching for us here.

Sincerely,

Kevin Williams

Dear Faculty Promotion Committee:

I would like to take this opportunity to highly recommend Joyce Treulieb for the position of professor of Mathematics at Colorado Mountain College. Joyce has held the distinction of associate professor at the Colorado Mountain College for the past six years. As the assistant dean supporting STEM faculty at the Steamboat Springs Campus, it is my view that Joyce is fully qualified to be promoted to the position of professor and I urge you to award her this title and the responsibilities and benefits that go along with it.

Through Joyce's extreme passion about math, she provides students with impactful learning experiences within the classroom, and makes herself available to students through tutoring, program advising and student club guidance. In addition, Joyce continues to support the community via the Polaris Alaskan Malamute Rescue, the Sierra Club, Rocky Mountain Chapter, and the wolf recovery project.

It is my honor and privilege to recommend Joyce Treulieb for a promotion from associate professor of mathematics to the position of full professor. I am easily accessible should you wish to further discuss Joyce's qualifications. Please contact me at (970)-870-4470 or via email at dafroehlich@coloradomtn.edu

Respectfully Submitted,

Deb Froehlich

Assistant Dean of Instruction

Colorado Mountain College, Steamboat Campus
