MAT-125-SB01: Survey of Calculus
M/W 3:10 PM - 4:50 PM
1/17/2022 - 5/4/2022
Bristol Hall, 122
Classroom
13 / 25 / 0

MAT-125-SB02: Survey of Calculus
M/W 3:10 PM - 4:50 PM

November 8, 2022

To Whom It May Concern:

It is my pleasure to write a letter of support for Joyce Treulieb. I've known Joyce since I first arrived at CMC in the Fall of 2017. Her whirlwind passion for math and for teaching were and still are almost overwhelming. She has more energy than just about anyone I've met at CMC.

Joyce has mentored the rock-climbing club and has worked with us on our annual Engineering Club/Sky Club Haunted House project, which is a Herculean undertaking. This past summer she tutored one of our Engineering students who needed to make up a Physics class and worked with him and several other engineering students on a T-shirt cannon project as well. She has also taken over the Engineering Club since Steve's retirement and meets with the students regularly.

Joyce has a passion for math that makes her a formidable teacher to her students. I hear them all the time (her more advanced students are usually mine as well) talking about her ferocious intensity and energy. The Engineering students are (and were) mostly male, and it has always amused me how Joyce more than holds her own against their sometime raucous energy. Joyce puts students first at all times, and there's no doubt her passion for the discipline works its way into their heads!

I see Joyce working tirelessly to teach math, often in difficult circumstances, and I have no doubt she will continue to bring that energy to her classroom on into the future.

If you have any questions, please feel free to contact me.

Sincerely,

PAUL MCCUDDEN
