Sorry all, quick clarification...the faculty senate tasked a few of us faculty members to form a committee with the student services crew to tackle this issue. Anyone is welcome to serve on the committee, but we thought Carolyn, Linda, and Michelle would be the most logical. Please feel free to accept, decline, or recommend others for this committee.

Thank you,

Hello all,

As the cost and availability of housing for our students continues to be a challenge, and the demands from local employers for our student's skills during the holidays is ever-growing, we find ourselves at an interesting crossroads to become part of the solution. I am inviting you all to be part of a the **Winter-Break housing committee** to begin discussions on how we can assist our students in their goal of maintaining a consistent and dependable living situation during the Christmas holiday while living in our residence halls.

The goal of this first meeting will be to dive into the many challenges that exist with housing students over the holiday, and begin a brainstorming session on possible solutions. How does everyone's availability look for **next Tuesday, 2/20 11am-12pm**? Please let me know if you're available and I'll send a meeting invite

I know, I know, you're thinking...not this again! But please come with an open mind, and the willingness to listen to others and work together.

I look forward to meeting with you all!

Dear All,

We are happy to announce that we are doing Winter Break Housing for the students of Hill Hall this winter. At the same daily rate and really the best deal in town we are providing housing for the entire Winter Break at \$644 for 28 days. Residents can apply for Winter Break housing now by picking up an application from the Academic Center and Hill Hall Front Desks. On Monday, I emailed all residents and sent the application and information in their Spring 2019 Intent. Attached is the application with additional information. [Winter Break Housing Application](#)

We ask students to apply and pay their non-refundable deposit by November 14th and then pay the remainder in full by December 14th. If students have an issue with the application process they should contact me so we can create a plan.

Thank you to Michelle Cole and Carolyn Lawrence for putting together a plan that is safe for our students and sustainable. Thank you to Bob Beck for the support from Facilities!

Have a wonderful winter!
