

List of college-wide and campus committees

2022—Present:

College-Wide Faculty Senate—Steamboat Springs Campus Representative

Meets monthly. I was on this for two years 2021-2023, and 2022-2023. I have signed up for two more years, 2023-2024 (present), and 2024-2025.

- I am in charge of taking all the notes, and presenting them to my campus.

College-Wide Faculty Senate Subcommittee: In-Service Committee (Fall 2023).

Sabbatical Reviewer: (Fall 2023)

College-Wide Academic Misconduct Committee: Math Faculty Representative: (Fall 2022) -
Met once to determine outcome for a faculty allegation of academic misconduct.

2021-2022:

College-Wide Faculty Senate—Steamboat Springs Campus Representative -
Met monthly.

2020-2021: (And beyond)

MAT120 Corequisite Development—College Wide Committee

- This was a committee and a summer project to create new corequisite courses for Math For Liberal Arts, College Algebra, and Statistics. I was responsible for creating the coreq for Math for Liberal Arts. It was a huge undertaking, and ended with me writing a 149-page OER textbook as the deliverables.
- Met weekly, sometimes bi-weekly for the summer of 2020. We finished the corequisite documents in early August of 2020, but the committee continued to meet and work with the department and state over the next academic year to hone, debate and finalize the implementation. We are still involved in new processes to change the delivery of the courses. -
In the fall of 2020 I met with the Curriculum Committee as the representative from our Corequisite Committee. I insured that our voice was heard, and to disseminate information from our body of work.

2019-2020:

Academic Misconduct Committee—Faculty Representative, Steamboat Springs Campus -
Met weekly for several weeks.

- We came up with a definitive conclusion for the student that satisfied the campus. I was told I was crucial as a faculty representative in this case.

Fall 2018:

Winter Break Housing Committee, Faculty Representative, Steamboat Springs Campus -
Met a few times over the winter of 2018.

- The outcome was a net success for students.

2018-2019:

This Spring was my sabbatical semester. I wrote Calculus Over Coffee along with a solutions manual.

2017-2018:

Diversity, Equity, and Inclusion Committee, Steamboat Springs Campus -
Met Monthly

- I was involved in planning and organizing the creation and development of this committee.
